

# LARSON<sup>®</sup> STORM DOORS

REEB<sup>®</sup> IN-STOCK STORM DOOR CATALOG

2016 / 2017

# INTRODUCTION

## WELCOME

**Choosing a Larson® Storm Door means investing in quality, craftsmanship, durability and security.** Premium extruded aluminum and durable wood-core components provide superior protection against the elements while adding an abundant array of design options. Retractable, interchangeable and standard screen options offer even more opportunities to achieve the look you desire while helping to keep your home warmer in the winter and cooler in the summertime. All of our Larson extruded aluminum doors include a Limited Lifetime Warranty and the peace of mind that comes with ordering from a top-tier manufacturer.

We know these doors provide great performance and exceptional value, but what sets Reeb® apart is our commitment to stocking over 500 combinations of designs, colors, hardware, finishes and a variety of glass options. This unprecedented selection, coupled with a targeted 1-3 day delivery time make ordering from Reeb an easy choice when selecting a Larson Storm Door for your next project.

### Support USA Made

Reeb is proud to partner with companies that believe in America. For over 60 years, Larson has manufactured storm doors here in the USA, demonstrating a strong commitment to their customers, employees and communities.

## Retractable Screen

## Interchangeable Screen

## Standard Screen

**SCREEN AWAY**  
RETRACTABLE SCREEN

- Built-in screen glides up and down for quick and easy ventilation
- Hides screen discreetly in top half of door
- Provides ventilation and protection from outside elements

### Retractable Screen

The screen discreetly hides into a cassette at the top of the door providing a clear view of the outdoors when not in use. The balanced window system and ergonomically designed handle glides the screen up and down for quick and easy ventilation control.

- Provides uninterrupted views from your entrance
- Most include separate glass and screen panels that are used interchangeably
- Protects your entry door

### Interchangeable Screen

Full-view models include an interchangeable screen that allows you to switch between full glass or full screen for seasonal ventilation control.

- Integrated screen so no extra storage is needed
- Reversa Screen - Half-fixed screen: Adjustable glass for top or bottom ventilation
- Single Vent - Half-fixed screen: For bottom ventilation

### Reversa Screen

Venting storm doors offer built in screens so letting in the breeze is easy. The ReversaScreen features a half screen providing ventilation at the top or bottom.

### Single-Vent

Single Vent storm doors have a half screen and provide a single sash for bottom ventilation.

# BUYER'S GUIDE

No matter the style or design, Larson® storm doors add comfort and security to any home.

When choosing a Larson storm door for your next home or building project, you have a wide selection of materials, technology, color, screen and hardware options to consider.

Our comprehensive Buyer's Guide provides an overview of our Larson product offering and lists the unique benefits of each selection. When you're ready to learn more, in-depth product information can be found on corresponding product pages later in the catalog.

FOR MORE INFORMATION SEE PAGE **10** »

### Key Features

#### Convenient Ventilation - ScreenAway®

Patented ScreenAway® technology allows the screen to retract into a hidden cassette at the top of the door when not in use for quick and easy ventilation control.

#### 3 Door Styles (Full-View, Mid-View, High-View)

#### 3 Glass Options (Clear, Low-E, Beveled)

#### 4 Hardware Finishes

(Brass, Brushed Nickel, Antique Brass, Aged Bronze)

#### Built-in Deadbolt

Matching handles inside and out with Built-in deadbolt lock.

#### Premium Construction

At 1-7/8", Classic Elegance® has our thickest aluminum frame featuring low-maintenance protection.

#### Simple Installation with EasyHang®

No cutting necessary. Have the confidence to install it yourself.

**Bottom Line** - The Classic Elegance® Retractable Screen collection represents our premium offering. They are simply the finest quality ventilating storm doors we offer; boasting our thickest construction, the convenience of ScreenAway® technology and the widest variety of style, glass, color, hardware and finish options. Each product in this line utilizes a keyed deadbolt lockset for enhanced security and is paired with a Limited Lifetime Warranty.

## Classic Elegance® Interchangeable Screen

FOR MORE INFORMATION SEE PAGE **12** »

### Key Features

#### Seasonal Ventilation - Interchangeable Screen

Full-view glass with an interchangeable screen included for seasonal ventilation control.

#### 1 Door Style (Full-View)

#### 3 Glass Options (Clear, Low-E, Beveled)

#### 4 Hardware Finishes

(Brass, Brushed Nickel, Antique Brass, Aged Bronze)

#### Built-in Deadbolt

Matching handles inside and out with Built-in deadbolt lock.

#### Premium Construction

Heavy duty 1-5/8" aluminum frame featuring low-maintenance protection.

#### Simple Installation with EasyHang®

No cutting necessary. Have the confidence to install it yourself.

**Bottom Line** - The Classic Elegance Interchangeable Screen collection is an excellent option for those seeking premium quality with seasonal ventilation control and don't mind finding extra storage for screens when not in use. These single-lite doors have no crossbar and feature multiple color and lockset hardware finish options. They include a keyed deadbolt lockset for enhanced security, and are paired with a Limited Lifetime Warranty.

# BUYER'S GUIDE

## Secure Elegance® Security Door

FOR MORE INFORMATION SEE PAGE **13** »

### Key Features

#### Security - Break-in Protection

\$1000 break-in protection guarantee for KeepSafe® Glass. Glass is permanently affixed to the frame for added security - no screen, no ventilation.

#### 1 Door Style (Full-View)

#### 1 Glass Option (KeepSafe®)

#### 3 Hardware Finishes

(Brass, Brushed Nickel, Aged Bronze)

#### Secure Multi-point Locking System

The locking system secures the door in 3 places adding extra protection from forced entry.

#### Premium Construction

Heavy duty 1-5/8" aluminum frame featuring low-maintenance protection.

#### Simple Installation with EasyHang®

No cutting necessary. Have the confidence to install it yourself.

**Bottom Line** - Like it says in the name, the Secure Elegance collection features Enhanced Security without compromising appearance. A combination of KeepSafe® glass and a powerful 3 point locking system make this door the most secure storm door available. In addition to the Limited Lifetime Warranty included with your purchase, Larson also provides a \$1000 Break-In Protection Warranty for added peace of mind.

## Classic-View® Interchangeable

FOR MORE INFORMATION SEE PAGE **14** »

### Key Features

#### Seasonal Ventilation - Interchangeable Screen

Full-view glass with an interchangeable screen included for seasonal ventilation control.

#### 1 Door Style (Full-View)

#### 1 Glass Option (Clear)

#### 2 Hardware Finishes

(Brass, Brushed Nickel)

#### Built-in Deadbolt

Matching handles inside and out with Built-in deadbolt lock.

#### Durable Construction

Heavy duty 1-1/4" aluminum frame featuring low-maintenance protection.

#### Simple Installation with EasyHang®

No cutting necessary. Have the confidence to install it yourself.

**Bottom Line** - The Classic-View Full-View collection is an excellent option for anyone seeking a moderately priced Full-View storm door. When comparing Classic-View with our Classic Elegance collection, Classic-View doors sport a slightly thinner construction, are available in white or brown only and have fewer hardware finish options, but never compromise on quality. This collection does not utilize ScreenAway® and will require extra storage for glass and screens when not in use. All Classic-View doors include a Limited Lifetime Warranty.

## Classic-View® Standard Screen

FOR MORE INFORMATION SEE PAGE **15** »

### Key Features

#### Reversible Ventilation

Reversa Screen® features a reversible half screen allowing for ventilation on top or bottom.

#### 2 Door Styles (Mid-View, High-View)

#### 1 Glass Option (Clear)

#### 2 Hardware Finishes

(White or brown color matched to door)

#### Decorative Pull-up Lever

Color matched lever with inside lock.

#### Durable Construction

Heavy duty 1-1/4" aluminum frame with a Metal-Tech reinforced kick panel for added durability.

#### Simple Installation with EasyHang®

No cutting necessary. Have the confidence to install it yourself.

**Bottom Line** - The Classic-View Standard Screen is a great choice for those seeking a door with a reinforced kick-panel and a reversible screen which allows for top or bottom ventilation. These doors are available in your choice white or brown with color-matching hardware. All Classic-View doors include a Limited Lifetime Warranty.

## Lifestyle Retractable Screen

FOR MORE INFORMATION SEE PAGE **16** »

### Key Features

#### Convenient Ventilation - ScreenAway®

Patented ScreenAway® technology allows for the screen to retract into a hidden cassette at the top of the door when not in use for quick and easy ventilation control.

#### 1 Door Style (Mid-View)

#### 1 Glass Option (Clear)

#### 2 Hardware Finishes

(Brass, Brushed Nickel)

#### Built-in Lock

Mortise lock with interior and exterior decorative handles offer protection and beauty.

#### Solid Construction with DuraTech®

1" solid wood core construction with a low-maintenance DuraTech® surface for added protection from weather and aging.

#### Simple Installation with EasyHang®

No cutting necessary. Have the confidence to install it yourself.

**Bottom Line** - The Lifestyle door is an economy wood core door that includes the premium benefits of ScreenAway® technology and decorative hardware options. These doors are available in white only and feature a mortise lock with inside locking hardware in two color choices and a 10 year warranty.

# BUYER'S GUIDE

## Life-Core® Standard Screen

FOR MORE INFORMATION SEE PAGE **17** »

### Key Features

#### Reversible Ventilation with WearTuff™ Screen

Reversa Screen® features a reversible half screen allowing for ventilation on top or bottom. A WearTuff™ screen is 3 times stronger than our standard screen for added durability.

#### 1 Door Style (Mid-View)

#### 1 Glass Option (Clear)

#### 2 Hardware Finishes

(White or brown color matched to door)

#### Push-button Hardware

Color matched hardware with inside lock.

#### Solid Construction with DuraTech®

1" solid wood core construction with a low-maintenance DuraTech® surface for added protection from weather and aging. Our high traffic 5 hinge system and FlexGuard™ closer protect the door from excessive use and allow opening past 90 degrees to extend its lifetime.

#### Simple Installation with EasyHang®

No cutting necessary. Have the confidence to install it yourself.

**Bottom Line** - The Life-Core® collection is an economy wood core door with unique features that make it more durable in high traffic situations. This is the perfect choice for Landlords and Property Managers who need a door that will stand up well to excessive wear and tear. All Life-Core doors include a 10 year warranty.

## Vinyl-Clad Standard Screen

FOR MORE INFORMATION SEE PAGE **18** »

### Key Features

#### Standard Ventilation - Single-Vent

Venting storm doors offer built-in screens so it's easy to let in the breeze. The Single Vent storm doors have a half-screen and provide a single sash for bottom ventilation.

#### 1 Door Style (Mid-View)

#### 1 Glass Option (Clear)

#### 1 Hardware Finishes

(Black only)

#### Push-button Hardware

Black hardware with inside lock.

#### Standard Construction

1" solid wood core construction with a low-maintenance vinyl surface.

#### Simple Installation with EasyHang®

No cutting necessary. Have the confidence to install it yourself.

**Bottom Line** - Our Vinyl-Clad offering is an economy wood core door that features standard ventilation and standard hardware. It is available in white only and includes a 5 year warranty.

# GLASS INFORMATION

## Clear Tempered Glass

Available with all storm doors except Secure-Elegance®.

## Double Bevel

Decorative double-bevel full view glass available with Classic Elegance® EasyVent® Selection and Classic Elegance® Elegant Selection™.

## Low-E

High-performance glass offers better year-round insulation and reduces the harmful fading effect of the sun to protect your entry door and floor.

Available with Classic Elegance® Series

## Is it worth it?

Absolutely! Low-E glass options are definitely worth the investment. For just a few more dollars than standard glass, you get the energy savings and protection from low-e glass. And that little extra cost can pay for itself with the money you'll save on utility bills!

## KeepSafe®

Security doors no longer need bars to be secure, thanks to the innovative KeepSafe® Glass feature. Like an windshield, the KeepSafe Glass has a laminated security shield embedded between two pieces of factory strengthened glass. When impacted, the broken glass clings to the laminated interlayer and remains intact preventing entry through the opening. The glass is permanently affixed to the frame of the door so it stands up to repeated blows by blunt objects.

Available with Secure-Elegance® only.

# CLASSIC ELEGANCE® EasyVent®

RETRACTABLE SCREEN

## EXTRUDED ALUMINUM

- 1-7/8" thick aluminum frame is low-maintenance
- Overlapping frame seals out weather and conceals hinges and gaps
- Double weatherstripping for superior protection
- EasyVent® balanced window system for easy one-hand operation
- Two closer system color matched to door: bottom closer features Hold Open button that holds storm door open with tap of toe; top closer adds dependable opening and closing
- Bottom expander color matched to door and adjusts to uneven sills
- Matching levers inside and out with Built-in deadbolt lock
- Designer screw covers conceal exterior mounting screws
- Reversa-Hinge™ for right or left mounts

# HOW TO MEASURE FOR YOUR DOOR & INSTALLATION

## MEASUREMENTS

Measure your door opening width horizontally as depicted in the table below. Take one measurement across the top of the door, one across the middle and then a final measurement across the bottom, recording the narrowest dimensions. Then, measure the opening height (vertically) as shown (D). Record the shortest dimension.

STANDARD DOOR SIZES	MINIMUM-MAXIMUM DOORWAY WIDTH	MINIMUM-MAXIMUM DOORWAY HEIGHT
30" x 81"	29-7/8" to 30-3/8"	80" to 81"
32" x 81"	31-7/8" to 32-3/8"	80" to 81"
34" x 81"	33-7/8" to 34-3/8"	80" to 81"
36" x 81"	35-7/8" to 36-3/8"	80" to 81"

## INSTALLATION

Larson's patented installation method is named EasyHang® for a reason. Here are just some of the benefits you can expect when choosing a Larson storm door.

### What makes the EasyHang System so easy?

#### Larson Doors Offer:

- An exact fit with mounting rail extenders
- Pre-drilled hinge locator holes
- Easy mounting with no cutting or sawing needed

#### Easy Jamb Hole Locator System Provides:

- Exact alignment of the hinge rail
- Correct placement to the home

- 1 - Insert Hanging Screw
- 2 - Install Hinge To Door
- 3 - Hang Door On Home
- 4 - Adjust Height

Install hardware, expander and enjoy
